

# Narayan Sambare

+91 9021147485 | sambarenarayan@gmail.com | SaiPrasad Apartment Warje, Maharashtra

## Objective

I build websites with speed, discipline, and smart thinking just like I train myself in the gym and play Kho-Kho. As a Computer Engineer and Web Developer, I focus on creating Attractive, performance-driven web solutions that users trust, teams enjoy maintaining, and systems can handle under real-world pressure.

## Technical Skills

**Programming Languages:** Java

**Frontend Languages:** HTML, CSS

**Frameworks & Libraries:** Bootstrap, Django

**Database & Backend:** SQLite, MySQL

**Tools & Platforms:** GitHub, Git, VS Code, Eclipse

**Office Tools:** MS Office

**Hacker Rank:** 4 Star ( java)

## Internship

### Cravita Technologies Pvt Ltd

Pune, Maharashtra

Aug 2024 – Sep 2024

- Developed responsive and user-friendly interfaces using **HTML, CSS, JavaScript** ensuring cross-browser and cross-device compatibility.
- Worked with version control (Git, GitHub) for **collaborative** development, code reviews, and maintaining repositories.
- Optimized front-end performance by reducing load time, minimizing code redundancy, and implementing lazy loading

### Passion Software solution

Jalgaon, Maharashtra

Jun 2024 – Jul 2024

- Deployed Student Management System using **Django, HTML, CSS, Bootstrap, SQLite** to manage student records.
- Designed a responsive web interface and connected it with a **Python backend** to **add, update, and delete** student data safely.
- Worked on improving application flow and fixing issues to ensure reliable and smooth performance.

## Projects

### Maha Metro Dummy Project (Nashik) | [live Demo](#) | [Source code](#)

- Designed a responsive front-end interface for Nashik Metro dummy project using **HTML, CSS, JavaScript** and **Bootstrap**
- Created interactive user pages for ticket booking, Maps (route details), and metro schedules, ensuring an intuitive user experience.
- Use reference of original website like ticket booking, Pune and Nagpur Metro Section.
- Implemented responsive design principles for compatibility across desktops, tablets, and mobile devices.

### Student Management System | [Source code](#)

- Developed a student management platform allowing users manage the student data like **insert update delete**
- Created a responsive front-end in HTML and CSS

- Integrated with a Python backend for secure data processing.

## Education

---
